

*For Immediate Release*

## **Nevada National Security Site Occupied By the Pacific Life Community and Friends**

*Contact:*

Mary Lou Anderson: 702-572 7249

Marcus Page-Collonge: 505-379-6942

**Why:**

1. The failure of the US government to act swiftly to prevent further nuclear disasters like the ongoing radioactive Fukushima pollution (3<sup>rd</sup> anniversary).
2. To end the Occupation of the Western Shoshone Homeland and to insist on compliance with the Treaty of Ruby Valley.
3. To ensure that Yucca Mountain will not become a fully implemented nuclear waste repository.

**When:** Monday, March 10, 2014 at 7 AM

**Where:** The Nevada National Security Site (NNSS), Mercury Exit US-95

**How:** Sacred ceremonies (including honoring deceased peace-makers) and ritual nonviolent prayer-actions will be taken. Come if you care about your future. Arrests are probable for those willing to take such a peaceful risk.

*The Pacific Life Community is a nuclear abolitionist gathering of civilians from the Western and South Western states. It is a collective of nonviolent, spiritual, environmental justice-minded and peacemaking individuals. Each year the Pacific Life Community holds civil resistance activities at nuclear weapons facilities.*

---

**Following the prayer-action at the NNSS, the Pacific Life Community will present a peaceful, special, nonviolent surprise of more direct action in Las Vegas which similarly may result in arrests during a prayer-vigil. Call the organizers for more info, and see the subsequent news release for details.**
