Sacred Peace Walk 2011: Las Vegas to the Nevada National Security Site (via Creech Air Force Base)
WALK-A-THON to support the Nevada Desert Experience Peace Work

Hundreds of people have walked the 65 miles from Las Vegas, Nevada to the Nevada National Security Site for the cause of abolishing nuclear weapons and opposing increased use of this desert in the development and use of weapons that harm increasing numbers of people. As Martin Luther King Jr. said, "Darkness cannot put out darkness. Only light can do that." 100% of your donations will help NDE and us “walk our talk.”
